

Postdoctoral Position available

**Michel Laboratory
Department of Pharmaceutical Sciences
School of Pharmacy
University of Maryland
Baltimore, MD 21201**

The Michel laboratory is seeking a postdoctoral fellow to work a new NIH funded project focused on H₂S targeting of Zinc Finger proteins. This multidisciplinary project combines biochemistry, cell biology and proteomics approaches to understand the role of zinc finger proteins in H₂S signaling. We are seeking a highly motivated applicant with expertise in bioinorganic chemistry, biochemistry, cell biology, and/or proteomics. Applicants should contact Sarah Michel – smichel@rx.umaryland.edu
